Read and reflect.—The afflicted would do well to reflect before trusting their health, happiness, and immany cases their lives, in the hands of physicians Ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to. Every respectable physician has his peculiar branch, in which he is more successful than his brother professors, and to that he devotes most of his time and study.

Years of practice, exclusively devoted to the study and treatment of diseases of the sexual organs, together with ulcers upon the body, throat, nose or legs, pains in the head or bones, mercurial sheur arism strictures, gravel, irregularities, diseases arising from youthful excesses, or impurities of the blood, whereby the constitution has become enfeebled, enables the doctor to offer speedy relief to all who may place themselves under his care.

Marchisi's Uterine Catholicon, FOR THE CURE OF A CERTAIN CLASS OF DIREASES INCI-

Our knowledge of the superior remedial powstatution, is founded upon the truths of medical science and confirmed by the experience of thousands of ladies who have taken of this catholicon with the most happy

and universal success for the diseases and derangement FEMALE COMPLAINTS.

og these are Prolapsus Uteri or falling of the Chronic Inflammation and Ulceration of the Womb Incidental Hamorrhage, or Flooding, Flour Albus or Whites Chlorosis, Painful, Suppressed and irregular Menstruation,etc., with all their accompanying evils, (Cancer excepted ) of whatever duration and severity. All these complaints can be pleasantly, safely, and certainly remedied by this preparation.

The general failure of the worthy attempts of the

medical faculty to care this class of diseases heretofore, is greatly to be attributed to their reliance upon local remedies, aside from the want of a knowledge of the propphilosopher. He is one third collar, one sixth patent leather, one fourth walking stick, and the rest kid gloves and hair. As to his remote ancestry there is some doubt, but it is now preter treatment for the general economy. Already, very complaints for which it is intended.

The miluence of this composition upon the female constitution is of the most friendly kind, the most deli-

fering for want of its aid.

Pamphlets containing much useful information touch, ing the nature and symptoms of the above diseases together with testimonials from ladies of the lighest respectability, as certified by the most satisfactory authority in the pappulet, to all, which the attention of ladics and practitioners is respectfully invited can be lad gratis at the store of Curtis Hatch, Druggist, Ravenna.

WHATEVER concerns the health and happiness of a people, is at all times of the most valuable inpurance. I take it for granted that every person will do all in their power to save the lives of their children, and all in their power to save the lives of their children, and that every person will emleaver to promote their own health at all sacrifices. I feel it to be my duty to solemnly assure you that Worms, according to the opinions of the most celchrated physicians, are the primary cause of a large majority of diseases to which children and adults are 'table, if you have an appetite continually changeable from one kind of lood to another, had breath, pain in the stemach, picking at the nose, hardness and finitess of the belly, dry cough, slow fever, pulse irregular—remember that all these denote Worms, and you should at once apoly the remedy.—

Hobensack's Worm Syrup: An article founded upon scientific principles compounded with purely vegetable substances, being perfectly safe when taken, and can be given to the most tender infant with decided beneficial effect, where howel complaint and Distribute have made them weak and debilitated, the Tonic properties of my Worm syrup are such, that it stands withen an equal in the catalogue of medicines, in giving tone and strength to the stomach, which makes it an infallible remedy for those afflicted with Dyspepsit; the exhabiting curse performed by this syrup after phy. the astonishing cures performed by this syrup after phy sicians have failed, is the best evidence of its superio

HOBENSACK'S LIVER PILLS!

We should therefore watch every symptom that might indicate a wrong action of the Liver.— The preparation, after undergoing the most labored and scruting trials by scientific men in every possible way to perfect its curative adoptation to this class of omplaints, for a series of years has become all that could be desired to fulfil its mission, and by its fruits it may now be known in the cure of thousands but its career is but just entered upon, for millions of ladies are now suffering for want of its aid.

Extract of a letter from Mr. Joseph C. Paulding, dated Philadelphia, Sept. 7, 1852. Dr. G. W. Halsey-Dear Sir, your Forest wine and Pills have cured my wife of a dreadful nervous disorder, with which she had been afflicted for many years. Her body was almost wasted away. She was frequently dis-turbed in her alcep by frightful dreams, awakening quite exhausted and covered with perspiration, and at times aboring under the delusion that something droadful was about to happen to her. By the use of four bottles of the wine, and a box of the pills, she is now in perfect health. She has regained her flesh and celor, and enjoys society as well as ever.

By the aid of this preparation, the pains and evile of Indigestion and Dispepsin are removed, just as they would be by a healthy stomach. It is doing wonders for dispepties, curing cases of debility, Emacration, Nervous Beeline and Dispeptic consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based, is in the highest degree curious and remarkable.

Baron Liebig in his celebrated work on Animal chemistry says: "An artificial digestive fluid apalogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Ox, in which various articles of food as meat and eggs, will be acficied changed and digested just in the same manner as they would be in the kumaa stowach."
